Part II: LAYING OF HANDS and VIOLET FLAME HEALING from the GREAT CENTRAL SUN

Saint Germain's two main gifts are miracles & prophecy, that is why he offers healing... As the recipient reclines, Saint Germain kneels at their left side, laying his right hand on the recipients left knee. Saint Germain then calls forth the Ascended Cosmic Twin Flames of King Alpha and Queen Omega from the White-Fire-Core of the "Great Central Sun" (Source); his own mighty I Am Presence, and the I Am Presence of this World. He does sacred invocations, decrees, prayers and visualizations according to the recipients specific needs, also invoking the cosmic, All-Consuming Violet Flame, to transmute any misqualified energies. Other "Celestials" are called on accordingly, as Saint Germain invokes Elohim, Archangels and Ascended Masters to assist.

Every laying-of-hands is unique, depending on:

1. How "open" one is to receive with faith and trust
2. How much karma one has already balanced.
3. How much the "Will of God" will allow
